SKILLS

Javascript   ReactJS

Python   NodeJS

HTML5   Ant Design

CSS3   MongoDB

Material UI

Tailwind css

WORK EXPERIENCE

Title : Jr. Software Engineer
Company : Sphinx Worldbiz ltd.

06/2022 - 06/2023   *Noida Sector-16 , India*

Achievements/Tasks

- Developed dynamic frontend UI using ReactJS, NodeJS, and MongoDB for web applications.
- Collaborated with backend developers to integrate frontend components with server-side logic.
- Implemented responsive design and ensured optimal performance across different devices and browsers.
- Utilized best practices in coding, version control, and code review to maintain high-quality standards.
- Actively participated in Agile development processes, including sprint planning and daily stand-up meetings.
- Contributed to the improvement of existing projects by identifying and implementing optimizations.

PROJECTS

AutoSAR Studio
- **Technology used :** ReactJS , NodeJS , MongoDB , Javascript
- Developed frontend and backend of AutoSAR studio web app, seamlessly managing navigation through the proficient implementation of advanced routing techniques.

3D-Pester
- **Technology used :** ReactJS , ASP.NET , SQLite(DB browser) , ThreeJS Javascript library , Javascript , CSS frameworks
- In my role, I showcase my expertise by tackling both the frontend UI development and diligently resolving bugs, ensuring a seamless user experience throughout the application.

Vinivia (Event Manager)
- **Technology used :** ReactJS , NodeJS , SQL database , Javascript , CSS frameworks etc
- I have excelled in my responsibility of addressing and resolving bugs, showcasing my ability to efficiently troubleshoot and deliver robust solutions, contributing to the overall stability and reliability of the system.

Contact Manager
- **Technology used :** ReactJS , NodeJS , MongoDB , Javascript , CSS , HTML
- **Github link :** https://github.com/payalashtikar/contacts-manager
- Developed frontend and backend of contact manager web app also worked on login, signup, contact page also handled navigation using routing technique and for security purpose we have used JWT token , bcrypt for password hashing

Photo Sharing App (Instaclone)
- **Technology used :** ReactJS, NodeJS , MongoDB , Javascript
- **Github link :** https://github.com/payalashtikar/InstaClone_-Project
- Build the frontend development of a photo sharing application, skillfully constructing an engaging post feed page. Moreover, I implemented advanced routing techniques to seamlessly navigate through the app, enhancing the overall user experience.

EDUCATION

Full-Stack Developer Bootcamp
10x Academy (A six-months full time program, focused on Full-stack tech)

12/2021 - 06/2022

B.Tech in Computer Science Engineering
J D College of Engineering & Management , Nagpur

2018 - 2021   *8.54*

Diploma in Computer Engineering
J D Polytechnic , Nagpur

2015 - 2018   *8.2*

Secondary - Class X
Nikunj Vidyalaya Highschool , Nagpur

2014 - 2015   *7.3*
